SUBJECTS.

A

Addresses. Medicine from the lay standpoint: Moliere, Shaw, Kipling, Timothy Leary, M.D., 27; Annual meeting of the Massachusetts Tuberculosis League, April 23, 1919. Introductory remarks by the President, Vincent Y. Bowditch, M.D., 53;
Abbott, Frederick Wallace, M.D., 75.
Accident Board, Industrial, Medical fees under, 591.
Accommodations for the Insane of the City of Boston, Necessity of additional, James V. May, M.D., 601.
Activities of a medical college, 645.
Activities of the Red Cross World, 492.
Acute Empyema, Surgical treatment of, following influenza, Wyman Whittemore, M.D., F.A.C.S., 692.
Acute Empyemata, Series of 100 consecutive, Wyman Whittemore, M.D., F.A.C.S., 575.
Acute Mastoiditis at age of 84. Operation with recovery, Edmund J. Butler, M.D., 465.
Adequate Reduction and care in Colles's fracture. New methods, Frederic J. Cotton, M.D., 651.
Address given at the Public Health Convocation, Springfield, Mass., November 21, 1919, Alfred Worcester, M.D., 703.
Administration of arsphenamine, Albert S. Hyman, M.D., 353.
Agricultural and industrial tuberculosis community, 215.
Alcohol as a factor in the production of epilepsy and allied convulsive disorders, D. A. Thom, M.D., 42.
Allen, Carl Addison, M.D., 442.
Ambulatory Treatment of fracture of the femoral neck, E. H. Bradford, M.D., 10.
American Journal for Care of Cripples, 216.
American Red Cross Tuberculosis Work in Italy, 435.
American Red Cross tuberculosis commissions, 545.
American Public Health Association, Sub-committee on pathometry of the influenza epidemic, 666.
Apparatus, Portable x-ray, Percy Brown, M.D., 548.
Apparatus, respiration, Gaseous exchange with unpracticed subjects and two, employing three breathing appliances, M. F. Hendry, T. M. Carpenter, and L. E. Emmes, 285, 334, 368.
Appeal for human embryological material, William W. Graves, 600.
Arm, German shell shattered, Reconstruction of, Charles L. Scudder, M.D., and Francis J. Callanan, M.D., 296
Army, Neuro-psychiatric work in, A. E. Brownrigg, M.D., 458.
Army Camps, Neuro-psychiatry in, George E. McPherson, M.D, 606.
Army tuberculosis problem as seen in Massachusetts, John B. Hawes, 2nd, M.D., 499.
Arsphenamine, Administration of, Albert S. Hyman, M.D., 353.
Arsphenamine and vaso-dilators—a further explanation, H. S. Jelalian, M.D., 106.
Arterial tension, Low, George Van Ness Dearborn, M.D., 659.
Associated Pains in the knee and penis, A case of, Herman W. Marshall, M.D., 367.
Atlas and Axis, A method for more accurate study of injuries to the, Ariel W. George, M.D., 395.

B

Bacteriology of secondary pneumonia, Henry T. Chickering, M.D., 679.
Bedside radiography with a new portable x-ray apparatus. The army bedside x-ray unit adapted as a portable apparatus for civilian practice, W. K. Coffin, M.D., 431.
Bibliography, A selected. Encephalitis: acute epidemic, lethargic, Miss M. E. Campbell, 76.
Birth-Rate in Great Britain, Declining, 305.
Blind, Massachusetts Commission for the, 13.
Blind soldiers, Care of, 306.
Blood Transfusion in war surgery in the British Army, E. Granville Crabtree, M.D., 60.
Book Reviews.
Plastic surgery of the face, head, and neck, Joseph C. Beck, M.D., and Ira Frank, M.D., 565.
The blind, Harry Best, 406.
Transactions of the American Surgical Association, John F. Binnie, M.D., 749.
Manual of laboratory diagnosis, Herman John Bollinger, M.D., 697.
The use of blood agar for the study of streptococci, James Howard Brown, M.D., 748.
Nerve control and how to gain it, H. Addington Bruce, 304.
The soul in suffering, Robert S. Carroll, 644.
Physiology for nurses, W. G. Christian, M.D., and C. C. Haskell, M.D., 643.
Neurological clinics, Edited by Joseph Collins, M.D., 542.
Home hygiene and care of the sick, Jane A. Delano, R.N., 184.
Principles of bacteriology, Arthur A. Eisenberg, M.D., 434.
After-treatment of wounds and injuries, R. C. Elmslie, M.S., F.R.C.S., 590.
Nervousness, its causes, treatment, and prevention, L. E. Emerson, Ph.D., 465.
Neoplastic diseases, James Ewing, A.M., M.D., 406.
Pulmonary tuberculosis, A. L. Fishberg, M.D., 519.
A manual of diseases of the nose, throat, and ear, E. B. Gleason, M.D., 276.
Mental diseases, Walter Vose Gulick, M.D., 590.
War Time Nerves, Herbert J. Hall, M.D., 12.
An introduction to neurology, C. Judson Herrick, 589.
A manual of gynecology, John Cooke Hirst, M.D., 434.
The Johns Hopkins Hospital reports, 697, 719.
The Humane Society of the Commonwealth of Massachusetts, N. A. De Wolfe Howe, 620.
A text-book of physiology, William H. Howell, 184.
Surgery in war, Alfred J. Hull, F.R.C.S., 542.
A laboratory manual of elementary zoology, L. H. Hyman, 643.
Electricity in medicine, George W. Jacoby, M.D., and J. Ralph Jacoby, M.D., 644.
Papers on psychoanalysis, Ernest Jones, M.D., 512.
General bacteriology, Edward D. Jordan, Ph.D., 583.
Johnson's standard first aid manual, Fred B. Kilmer, 214.
The child's unconscious mind, Wilfred Lay, 304.
Nursing in diseases of children, Carl G. Leo-Wolf, M.D., 643.
The soldier's heart and the effort syndrome, Thomas Lewis, M.D., 718.
American Red Cross text-book on first aid, Colonel C. Lynch, 184.
Pathological technic, Frank B. Mallory, M.D., and James Homer Wright, M.D., 667.
Physiology and Biochemistry in Modern Medicine, J. J. R. MacLeod, M.B., and Roy G. Pearce, B.A., M.D., 12.
The pathology of pneumonia in the United States Army camps during the winter of 1917-1918, William G. MacCullum, M.D., 748.
War neurosis, John T. McCurdy, M.D., 696.
Clinical microscopy and chemistry, F. A. McJunkin, M.A., M.D., 590.
The disabled soldier, Douglas C. McMurtrie, 214.
Tuberculosis of the lymphatic system, Walter Bradford Metcalf, M.D., 304.
Hygiene for nurses, Nolie Mumey, M.D., 643.
Neuro-psychiatry and the war. National Committee for Mental Hygiene, 542.
Handbook of colloid-chemistry, Dr, Wolfgang Ostwald, 589.
The health officer, Frank Overton, M.D., D.P.H., 491.
The elementary nervous system, G. H. Parker, Sc.D., 71.
Chemistry for nurses, Fredus N. Peters, A.M., Ph.D., 491.
Symptoms of visceral disease, Francis Marion Pottenger, M.D., 491.
War surgery of the face, John B. Roberts, M.D., 512.
Studies from the Rockefeller Institute, 697, 718.
Diseases of the skin, James H. Sequeira, M.D., 98.
Concerning some headaches and eye disorders of nasal origin, Greenfield Sluder, M.D., 345.
An outline of genito-urinary surgery, George Gilbert Smith, M.D., 749.
Materia medica, Dr. Edward R. Squibb, 696.
The diagnostics and treatment of tropical diseases, E. R. Stitt, A.B., M.D., 371.
Surgical clinics of Chicago, 643, 668.
Roentgenotherapy, Albert Franklin Tyler, B.Sc., M.D., 214.
The human skeleton, Herbert Eugene Walter, 214.
Surgical treatment, James Peter Warbasse, M.D., 71
Paper work of the Medical Department of the United States Army, Ralph W. Webster, M.D., Ph.D., 141.
A stethoscope in ophthalmology, with especial reference to the treatment of heterophoria and heterotropia, David Wells, M.D., F.A.C.S., 371.
Mechanisms of character formation, William A. White, M.D., 71.
Personal identification, Harris Hawthorne Wilder, Ph.D., and Bert Wentworth, 668.
Beverages and their adulteration, Harvey W. Wiley, M.D., 434.
Information for the tuberculous, F. W. Wittich, A.M., M.D., 589.
Abstracts of war surgery, 719.
Board, Medical Service, Highlands and Islands, 346.
Bone Wounds, Treatment of Infected, Frederic J. Cotton, M.D., 379.
Boston City Hospital, 168.
Boston physician of former days, A, 6.

Breathing appliances, Gaseous exchange with unpracticed subjects and two respiration apparatus employing three, M. F. Hendry, T. M. Carpenter, L. E. Emmes, 285, 334, 368.
Bristol County Tuberculosis Hospital, 591.
British Army, Blood transfusion in war surgery in the, E. Granville Crabtree, M.D., 60.
British military hospitals, Tetanus in, 373.
Bronchitis, the most significant disease of the war, George A. Soper, Ph.D., 95.
Brown, Daniel Joseph, M.D., 151.
Browne, Sir Thomas, Unprinted items by, Alfred Ela, 498.

C

Cabot, Arthur Tracy (1852-1912), Frederick C. Shattuck, M.D., 302.
Calculi, Silent renal, Edward L. Young, Jr., M.D., 573.
Cancer, The treatment of early and doubtful cases of, Robert B. Greenough, M.D., 224.
Cancer statistics, Significance of, 544.
Cancer of the mouth, Frederick Bryant, M.D., 452.
Caney Creek community centre, 567.
Carcinoma of the skin, Treatment with radium, Channing C. Simmons, M.D., 477.
Cardio-Vascular-Renal regulation. Remarks on certain practical devices or processes useful for the conservation and reconstruction of cardiopathic patients, J. Madison Taylor, A.B., M.D., 445.
Care and adequate reduction in Colles's fracture. New methods, Frederic J. Cotton, M.D., 651
Care for blind soldiers, 306.
Carney Hospital, Obstetrical Department, 494.
Case of pneumococcus meningitis, with recovery, A. G. Gould, M.D., 713.
Case records and histories in the smaller hospitals, Horace P. Stevens, M.D., 324.
Case report of hyperpituitarism and hyperglycemia, F. Van Nuys, M.D., 465.
Case Report: Transposition of viscera, tertiary syphilis, C. Guy Lane, M.D., 641.
Causation of disease, or insect transmission, 407.
Central Europe, Typhus in, 74.
Changes in Workmen's Compensation Law, 243.
